

VACANCY

GENERAL MANAGER OPERATIONS

Please note that we will be considering INTERNAL and EXTERNAL applications for this position

Responsibilities:

- Build and maintain professional and reliable relationships with customers and stakeholders for continued and prospective operational agreements.
- Oversight of the legal and safe conduct of operations under the Air Operators Certificate (AOC) for National Airways Corporation (NAC)
- Ensure compliance throughout the AOC with South African Civil Aviation Authority Regulations (SA CAA CAR's) and the NAC Operations Manual (OM)
- Promote and demonstrate commitment to the directives of the corporate Quality and Safety mission and objectives.
- Ensure responsible, executable, and timely closure of all quality and safety findings and reports within departmental audits, inspections and reports.
- Follow up on safety and quality occurrences, ensuring appropriate actions are taken
- Oversee cost control measures to ensure the operations department operates in the most cost-effective manner.
- Work towards increasing the overall profitability and profit margin of the department.
- Manage all day-to-day operational functions of the department.
- Identify and implement improvements to systems and procedures to maximize operational efficiency.
- Prepare and submit all RFI's, RFP's and Tenders relevant to NAC

Requirements:

- CPL or ATPL advantageous.
- At least 8 - 10 years operational management experience
- Must be prepared to travel for work purposes
- Must be able to demonstrate adequate knowledge of the operation of the aircraft types operated by NAC;
- Must have acceptable oversight experience in a flight operations department or acceptable alternative experience;
- Should be able to demonstrate knowledge of an Operations Manual, the air operator certificate and operations specifications, as well as those provisions of the regulations and technical standards necessary to carry out the duties and responsibilities of the PRFO to ensure safety
